

Take flight with Travelers

It's great to have good choices.

Travelers has unique pilot-friendly financing programs that get you what you want.

Travelers Aircraft Finance specializes in aircraft lending in Canada — from small planes in the General Aviation sector to light business jets, Turboprop and helicopters too. While financing has been a challenging environment for many, Travelers is well capitalized and positioned for continued growth and has made a significant commitment to this specific business. Aviation has not been exposed to a significant decline in either asset value or usage due to the unique characteristics of the sector. Also, since Canada is so expansive, aircraft travel for many companies and individuals makes economic sense — not to mention increased productivity and the pure thrill and enjoyment of small aircraft flight.

I welcome the opportunity to work with you — I have the experience and Travelers has the credit appetite. Travelers has earned its reputation for efficient cost of capital, attractive rates, flexibility of programs, transparency and a positive, entrepreneurial approach to business.

Determining who you do business with goes beyond just price. Travelers empowers its staff to fund and process transactions in the most expedient manner, and its commitment to develop tailor made solutions that meet the needs of both end users and vendors results in long-term business relationships.

I invite you to let us earn your confidence.

Travelers Aircraft Finance is a division of Travelers Financial Corporation. Travelers Financial Corporation is one of the largest independent equipment finance companies in Canada.
